

Orwak 5070

Benefits

- Savings on your waste collection
- Tidy premises
- Space saving
- Ability to segregate waste

Features

- Top loading
- Small machine
- Easy to use
- High performance
- Single phase
- Multi chambers

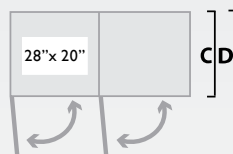

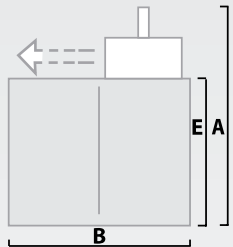

Technical specifications

Dimensions

5070

- A: 7'1"
- B: 69"
- C: 29" (35")* mm
- D: 56"
- E: 48"

*Including strap holders

Loading aperture

- Width: 28"
- Depth: 20"

- Cycle time: 30 sec.

- RAM force: 6,600 lbs

- Bale size**
- Width: 28"
- Depth: 20"
- Height: 28"

- Bale weight**
- Cardboard: Up to 110 lbs
- Plastic: Up to 176 lbs

- Chamber dimension (internal)**
- Width: 28"
- Depth: 20"
- Height: 38"

- Weight (machine)**
- Total: 1,185 lbs
- Only press unit: 352 lbs

- Noise level: < 70 db (A)

- Protection class: IP 55

- Operating power**
- 115 V/1/60 Hz

As easy to maintain as it is to operate

more than one bin to load into makes sorting of dry materials such as cardboard, bulky paper products and plastic film an easy task. Utilize up to 6 top-loading bins, one for each of your recyclables.

Once installed it is expandable with additional chambers. There is always a bin available for loading. A power head rolling atop of the bins compacts the materials into a neat bale. Manual tying of the bale, using 2 soft polyester bands.

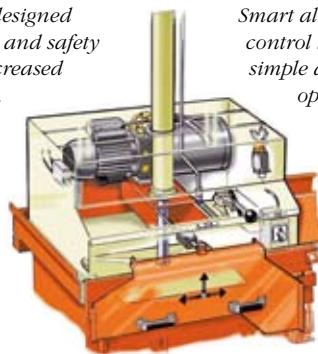

Adjustable bale size

Bale size can be adjusted to suit the material and your needs. Finished bales are easy to handle with the accompanying bale trolley.

Documented operational safety

Uniquely designed press head and safety details. Increased service life.

Smart all-in-one control lever for simple and safe operation.

All moving parts are built-in and inaccessible for maximum safety during operation.
