

MARATHON **RAMPRO** RECYCLING SYSTEMS

UBC Side-Eject Balers

Specially designed to meet Alcoa specifications for aluminum bale densities, Marathon's newest Side-Eject balers are performing above and beyond requirements.

SE-503042-950A-UBC

Operating Pressure	3000 psi
Force	190,900 lbs.
Ram Face Pressure	155 psi
Penetration	26"
Cycle Time	22 sec.
Motor	50 HP
Cylinder Bore	9"
Clear Top Feed Opening	50"L x 30"W
Bale Dimensions	30"W x 42"H x 60"L
UBC Bale Density	16-17 lbs/cu ft.
UBC Bale Weight	700 - 750 lbs

SE-504230-950A-UBC

Same specs as listed above except for the Clear Top Feed Opening, which is 40" wide on this baler, as opposed to 30" wide on the 503042-950A.

Specifications are subject to change without notice in order to accommodate improvements to equipment.
